- 2,800 watt *Magnum* inverter/125 amp charger (increased from 2,000 watt inverter and 100 amp charging)
- 12 volt bunk charging station for cell phones
- Maple hardwood and stainless steel rack
- Electronic weather station provides interior and exterior temperatures, barometric pressure and weather forecast.

New camper entertainment option for 2011

The ultimate camper entertainment system

Want the ultimate camper stereo system? This system features the latest in entertainment technology including an LED high definition flat screen TV that is only 1.2" thick along with a Bose 5.1 surround sound system - all flush mounted in custom enclosures. Team this with a Blu-ray HD player and a low profile KVH satellite receiver and you will have the best entertainment system on wheels.

- Samsung UN32B6000, 32-Inch, 1080p, 120 Hz LED HDTV
- Bose Lifestyle V10 home theater system with 5.1 surround sound
- Blu-ray CD/DVD player
- Flip down LCD screen under galley cabinet
- KVH TracVision A7 low profile satellite receiver
- Monster connection and speaker cable used throughout

\$13,832
